

# Crystal-Finish – decorative crystal effect

**Use:**

Crystal-Finish is a high-grade, acrylate-based decorative effect coating with real glass beads. Suitable for wall and ceiling coatings to wallpaper, paint, masonry, plaster, polystyrene and virtually all other interior surfaces.

**Technical data:**

Raw material base: Polymer dispersion, water, glass beads, fillers, pigments and additives  
 Density: 1.4 g/cm<sup>3</sup>  
 pH value: 8.5 - 9.5  
 Drying time: Approx. 8 - 12 hours

**Substrate preparation:**

Substrate shall be dry, solid, strong and free from adhesion-impairing substances (e.g. dust, mould oil). Remove badly adhering coatings, wallpaper and loose plaster. Repair holes and cracks. Pretreat highly absorbent, friable and chalking substrates with Deeply Penetrating Primer. Use a pigmented primer to even out colour differences. Smooth renovation nonwoven offers ideal substrate.

**Application:**

Crystal-Finish is supplied ready-for-use and can be applied by brush, working crosswise. Application in several coats is possible. For customized colours, Crystal-Finish Pearl can be tinted with max. 10% concentrated colorant, available in a variety of colour shades. In case of different batches of same colour, these shall be mixed together prior to application. After application, allow to dry for approx. 8 hours.

Do not use at substrate and room temperatures below +5°C. Wash tools with water immediately after use.

**Storage:**

Store in cool, though frost-free environment in properly sealed containers. Keep out of reach of children.

**Disposal:**

Hand over only fully emptied containers for recycling. Dried material residue may be disposed of as domestic or construction site waste. Dispose of liquid waste under EWC waste code: 08 01 12.
