

## KVS Cellulose Wallpaper Adhesive KVS Zell-Leim

Wallpaper adhesive of reliable, tested quality.

**Instructions for use:** *KVS Cellulose Wallpaper Adhesive* is suited for woodchip wallpapers, light and heavy weight paper wallpapers, embossed wallpapers, textile wallpapers, vinyl wallpapers and similar wall coverings.

**Technical specifications:**

Components:	Carboxmethylcellulose
Density:	0.6 g/cm <sup>3</sup>
pH-value:	7-8
Solubility:	ready to use in approx. 30 minutes
Usage:	Approx 200 ml/m <sup>2</sup>

**Surface preparation:** The surface must be dry, firm and free of dust and grease. Remove old, peeling wallpapers and distemper paints using *PUFAS Wallpaper Remover*. Make good cracks and holes using *PUFAS Interior* or *PUFAMUR Super Bonding Filler*.

Pre-treat strongly absorbent, abrasive and chalky surfaces with *PUFAS Deeply-Penetrating Primer – solvent free*. Water-soluble contaminations in the surface, which could show through when wallpapered over, should be isolated using *PUFAS Insulating Spray White*.

To make a subsequent change of wallpaper easier, we recommend priming the surface first with *PUFAS Wallpaper Base Primer 'Tapeten-Wechselgrund'*, especially where washable wallpapers are used.

**Application:** Stirring vigorously, sprinkle 200 g *KVS Cellulose Wallpaper Adhesive* into 5 l clean, cold water and continue to stir for a few minutes. Leave for approx. 30 minutes and then stir vigorously again.

Evenly apply *KVS Cellulose Wallpaper Adhesive* to the wallpaper using a wallpapering machine or brush. Fold the pasted ends inwards and hang after an adequate soaking time. Always observe the wallpapering machine and wallpaper manufacturer's instructions for use.

We recommend to add approx. 20 % *PUFAS Wallpaper and Border Adhesive* for use on hardly absorbent surfaces and to increase the moisture resistance.

Do not use if the object and/or room temperature are below + 5° Celsius!  
Remove adhesive residues using a damp cloth.  
Clean tools in water after use.

**Storage:** Store in a cool and dry place! Keep the bag tightly sealed

**Available sizes:**

200 g paper bag	002402000
7.5 kg paper bag	002403000
25 kg paper bag	002401000
